Summer Explorations

Two separate weeks of summer school academies will be offered. Falls School District will have the opportunity to participate.

Please choose one or both of these “explorations”.

August 3-7

Explorations

Grades K-1 Weather

Become a storm watcher while learning about the fascinating world of weather.

Grades 2-3 Structure Construction

Design and create structures such as bridges, towers and buildings

Grades 2-3 Forestry

Learn about Wisconsin's forest

Grades 4-5 Inventions

Turning something old into something new.

More Information

Summer School Academies in the Black River Falls School District are an excellent opportunity for elementary students to explore a new theme each week. More importantly though, it will be a chance for them to strengthen their reading, writing, math, and science skills while having fun!

Who should attend? ALL STUDENTS!!

We will offer remediation for students that need it as well as challenge **ALL** students to reach new heights!

The summer school day runs from 7:45 AM - 12:00 AM.

How to Register

All you need to do is complete a Summer School Registration form. This will provide us with all of the information we need, including:

- Explorations your child will be attending
- Busing & Meal Information

All summer sessions will be held at Gebhardt Elementary.

Registration forms should be returned to your building secretary by April 30, 2009 so we can make all of the final arrangements.

If you did not receive a copy of the registration form or need a new one, please contact your school secretary or visit our web site at:

<<http://www.brf.org>>

ed this year in August. Children in the Black River
date in a new and exciting learning adventure each week.

orations" for your child's summer learning .

August 10-14
