Patty Jacobson expressed her concerns that driver’s education is not provided in the school setting. She is concerned that people are not taking the class and are simply waiting until they turn 18 to get their driver’s licenses or they’re driving without a license altogether. It was decided that even though the Board doesn’t feel that driver’s education is something the school should offer, it is possible that the School District could work with other agencies in order to provide access to the classes if they need financial assistance.

The Board discussed the costs involved in providing Wifi on the sports buses. Dr. Severson reviewed a couple of options that seem financially manageable. It was decided that the Board would like to review the opinions of the High School Student Tech Team, Coaches, etc. before making a final decision.
